Hawaii's Eager Volunteers Cut **Draft Quotas**

Because Islands Have Exceeded Guard Requirement, States Benefit

Washington, July 14.- Explanation to-day of the quota allotment for the selective draft army, as announced yesterday, shows that the territory of Hawaii stands in a class by itself among the states and territories, having already furnished nearly two thousand men as volunteers in excess of to fill up the first army. Every other state or territory has been benefited accordingly a reduction in its net

This accounts for the "adjustment factor included in the tables fixing quotas given out yesterday, and also for the fact that no quota is given to Hawaii and that the territory will not be required to furnish any men what ever under the President's call for 687,000 to fill up the regulars and Na-tional Guard and to make up the first 500,000 of the National Army. National Guard maintained by Hawaii.
Another fact developed to-day in
connection with the allotment of credits is that the War Department has

furnished to each Governor a full list of war recruits enlisted in the regular army since April 1, and who claim that state as home. Lieutenant Colonel sheets contain every possible
